SUMMARY

Full-stack engineer pivoting from 12 years of behavior analytic experience collecting & analyzing data and making data-driven decisions to solve problems, implement solutions, and audit success in the context of Human and Autism Services and graduate level education. Seeking an opportunity to apply these skills in the tech industry by building applications that produce measurable improvement in performance and quality of life.

EXPERIENCE

The Chicago School of Professional Psychology

Adjunct Faculty

Los Angeles & Irvine, CA

August 2018 - October 2020

- Established curriculum and associated experiential activities for master level course now used across three Southern California campuses.
- Led graduate students through hands-on application of behavioral technologies while providing instruction, modeling, feedback, and performance evaluation across various Practicum skills & topics resulting in 100% pass rate.

Curriculum Development Collaborator

Chicago, IL (Remote)

August 2019 - April 2020

- Developed curriculum and associated experiential activities for bachelor level course for remote online instruction.
- Audited course materials for final publication ensuring curriculum met educational standards and certification board requirements leading to successful course publication by Fall 2020 semester.

Easterseals Southern California

Regional Trainer

Southern California Counties

May 2017 - September 2017

- Analyzed complex skills and developed standardized training protocols enabling quality assurance competency checks.
- Trained staff in crisis management and behavioral technologies using research-based methods leading to 100% pass rate.

Program Manager

Los Angeles, CA

June 2016 - May 2017

- Supervised staff performance, provided training, assessed morale, and coordinated team building meetings leading to 100% retention of direct supervisees.
- Evaluated data, summarized results, and recommended treatment options to stakeholders leading to continuation, termination, or graduation of services.

Working with Autism, Inc. Behavior Intervention Implementer

Los Angeles, CA

January 2012 - May 2016

- Implemented protocols for skill acquisition, problem behavior reduction, and crisis management to increase contact with valuable resources crucial for children with autism.
- Communicated with clients' interdisciplinary team and parents resulting in continuity of client services across teams and settings.
